Tiffany Robinson Named Harford County Employee of the Month for May 2014

(Bel Air, MD) - - Harford County Department of Community Services employee Tiffany Robinson has been named the Harford County Employee of the Month for May 2014. Robinson works in the Community Development Division.

Robinson was recognized for going above and beyond on a daily basis, consistently striving to accommodate as well as mentor her fellow employees. This year Community Development, faith based and community providers came together to count and assess Harford County's homeless population with a Reporter accompanying them.

Community Services takes part in this count every year at the same time to better understand homelessness. Once the count is completed, her work does not stop there; she must process the data gathered to compile a summary of charts to present the stats of Harford County's homeless.

There are long hours with this project to make sure that Community Development is able to serve the homeless population to the best of its ability. This happens by knowing exactly what types of homeless populations need help.

"By going above and beyond, Tiffany is making a difference in Community Development at the Harford County Department of Community Services," said Beth Hendrix, Director of Community Services who nominated Robinson for the award.

The homeless population in any county is hard to serve; however, Robinson was able to overcome obstacles and accomplish the goal of better serving the homeless.
